The War Today...

THE mystery of the whereabouts of the Big Japanese fleet which from time to time has been anchored within the "invulnerable" shelter of the powerful Truk is bringing this column many inquiries from readers.

Well, thanks for the compliment implied in asking me a question which the Allied high command itself probably couldn't answer definitely. Honestly compels me to admit that I don't know. Still there are some relative facts which are illuminating.

There have been numerous occasions during the war when a large Jap fleet was reported to be at Truk. This great base, which is one of the strongest ever developed, could shelter the Mikado's entire navy easily. However, the exigencies of global conflict have compelled the Nipponese to keep their main strength in home waters, to protect the motherland, while Truk has been used as the chief station for the Central and South Pacific operations.

The American force which carried out the devastating raid on Truk last week undoubtedly was much disappointed that it didn't find more warships in the anchorage, though unhappy Tokyo thinks the Yanks did well enough as it was. On Feb. 4 two United States photo planes took pictures of Truk, and on their return to their home base Capt. James Q. Yawn of Bogus Chitto, Miss., a member of one of the crews, reported that he had counted 25 warships at one spot, adding:

"It looked like the whole Jap fleet was down there, and I saw only a part of one of the anchorages."

Anyway, "the whole Jap fleet" wasn't there when we attacked it on a fortnight later. The answer may be that the Japs, who saw the move and the greater portion of photo planes at work and turned out the appearance of the photographers as presaging a major attack the Truk fleet to safe waters.

This would tend to substantiate the idea—widely held among naval men—that the Japs will try to avoid a big battle with our Pacific fleet until the day of terrible reckoning when they will have to defend themselves in home waters. It probably means also that they no longer will risk basing a large fleet on Truk, since our recent advance into the Marshall Islands will enable us to raid the base by sea or by air more or less at will.

Thus Truk, which has seen the hub of Japan's Pacific defensive and offensive set-up, is on the road to being rendered impotent. Actual-

Take Part In Most Daring Rescue Saga of War

This is the heroic crew of a Navy Catalina flying boat which landed four times despite 15-foot ocean swells and Jap shore fire to rescue 15 mates, shot down during the Feb. 15 aerial assault on Jap-held Kavieng, New Ireland. The flying boat picked up the stranded flyers from waters off Kavieng despite murderous Jap shore batteries.

The flyers who made the rescue are Ensign Lew Pulmer of Little Rock, Ark., left, and Ensign Walter Patrick of Des Moines, right. BREAK DEFENSE OF KRIVOI ROG

Russians Push Into Inner Defenses of City In Powerful Thrust

BULLETIN
LONDON, Feb. 22—The Berlin radio announced today the evacuation of Krivoi Rog, iron city in the lower Dnieper bend.

(By Associated Press)
MOSCOW, Feb. 22—The Red army pushed into the inner defenses of Krivoi Rog today in a thrust so powerful it seemed unlikely the Germans would be able to retain their grip much longer on this important iron ore and communications center in the Dnieper bend.

Fall of Krivoi Rog, coming on top of the loss of the manganese center of Nikopol, would constitute one of the hardest industrial blows the Nazi war machine has suffered since the Russian winter offensive began.

A Soviet communiqué said Russian troops had driven yesterday into the outskirts of the city, through which one of two German-held railways runs west from the Dnieper bend. The other line parallels it about 20 miles to the south-east.

In the north, the Russian war bulletin said, Soviet forces captured the big German base of Kholm, midway between Lake Ilmen and Novosokolniki, and a number of other points.

A special Soviet announcement, summarizing results of the Red army's northern offensive last month, said the Russians had cleared the coast of the Gulf of Finland up to the city of Narva, had occupied the eastern shore of Lake Peipus and had advanced from 90 to 150 miles south from Leningrad in defeating the main forces of the German 18th army.

Gallon Club Ranks Swelled As 202 Donate Blood Here

The largest number of volunteers in the 10 visits of the mobile unit here, yesterday donated blood which will be made into plasma for American servicemen and women throughout the world. One hundred and eighty bottles were filled from the 202 registrations.

Donors on the first day of the unit's visit included 79 men and 123 women. Twenty-two were rejected. Donor service workers said that a full quota of registrations, plus a number of extras to allow for cancellations and rejections, was slated for today.

Service Men Donate
Several volunteers yesterday joined the ranks of the Gallon club, composed of donors who have given eight pints of blood. Mrs. Ida Nicholas, who worked during the day as an assisting nurse, donated her sixth pint. Gilbert DeJane, former service man now discharged, and Edgar Kornbau, a sailor, were the only two service men to donate.

Volunteers from other points in the county including Lisbon, Moultrie, Hanoverton, Kensington, Leetonia, Columbiana, Winona and New Waterford helped to bring the two-day registration to its all-time high, workers said.

The following husbands and wives were donors: Mr. and Mrs. Floyd Hanley, Mr. and Mrs. Lafayette Coffee, and Mr. and Mrs. Ernest Horton. Mr. and Mrs. Gilbert DeJane of Leetonia, Mr. and Mrs. Virgil McLaughlin, Mr. and Mrs. John Ulrich, Mr. and Mrs. Lester Ramsayer, Mr. and Mrs. Thomas Moore, Mr. and Mrs. Harry McCartney, Mr. and Mrs. E. Forney, Mr. and Mrs. Ben Ware.

Two Nine-Time Donors
Ernest Horton and Albert Zimmerman were the only nine-time donors.

Eight time donors: Mrs. Maris Hatagan, Mrs. Inez Bixler, Mrs. Ruth Baisley, Mrs. Agnes Ramsayer, A. R. Peacock; seven times, Mrs. Frances Pelton, Mrs. Mildred Kline, Walter Whitcomb, Mrs. Mary Simon, Mrs. Jeanette McGee, Mrs. Nellie Horton, Miss Ruth Hoch, Thomas Moore and Miss Jane Tinsley.

Six times: Mrs. Helen McConner, Mrs. Nellie Birkhimer, John Hickling, Merle Reese, William Cain, Mrs. Betty Hull, Mrs. Lillian DeJane, George Baillie, Mrs. Mary Schuller, Mrs. Grace Hinton, Lester Ramsayer, E. P. Kennedy, Charles Fox, Robert Wentz, Miss Anna Moore, Mrs. Ida Nicholas and H. G. Shields.

Five times: Mrs. Nova Marquis, Michael Menegos, Mrs. Sara Groner, Mrs. Maxine Miller, Mrs. Rose Ceisel.

All Church Women Unite To Observe World Prayer Day

The program has been completed for the annual observance of the World Day of Prayer at the Church of Our Saviour at 2 p. m. Friday, sponsored by the Federation of Church Women.

Women representing all the churches of the city, the Salvation Army and the Women's Christian Temperance union will participate.

Mrs. Harold Hise, Episcopal church organist, will play for the congregational music. Special numbers will include vocal solos by Mrs. Roy Tibbs, accompanied by Mrs. Harold Babb, and John Cone, accompanied by Miss Anna Cook. Mrs. C. W. Leland will offer a prayer hymn during the program.

Rev. Harry A. Barrett, rector of the church, will open the observance with the call to worship. A choir composed of two women from each of the churches will be directed by Mrs. J. F. Schmid.

Servicemen and women, missionaries and refugees are especially invited to attend the program which is being given worldwide attention in churches throughout this and other Allied nations.

Women participating in the service are asked to meet in the church hall at 1:30 p. m.

A service at the Home for Aged Women will be held following the church program by members of the Friends church.

Special Lenten Services Set at Episcopal Church

Special Lenten services for the Church of Our Saviour are announced by Rev. Harry A. Barrett, the rector, opening with Ash Wednesday services tomorrow. Morning prayer, litany and penitential office will be held at the church.

Other services will include: Sundays, 8 a. m., communion; 9 a. m., church school; 11 a. m., morning prayer and sermon.

Week days, Wednesdays, 8 p. m., evening prayer with sermon (except March 15); Fridays, 3 p. m., evening prayer (except March 31); Saturday, March 25, communion at 10 a. m.

Holy week, 10 a. m. Tuesday and Wednesday, morning prayer; 10 a. m. Thursday, holy communion; 10 a. m. Good Friday, morning prayer and litany; 12 noon and 3 p. m., three-hour service; 4:30 p. m., Easter even, infant baptism.

One Dead In Los Angeles Storm: Wind Fells Trees

LOS ANGELES, Feb. 22—A lashing wind felled trees and power lines early today as the continuing rain reached a two-day total of 5.67 inches. One death was attributed to the storm, and sheriff's deputies reported a foothill bridge and two houses washed out.

92 JAP SHIPS DESTROYED IN THREE WEEKS

Eniwetok Island Captured While Air and Surface Units Pound Others

Destruction of 92 Japanese vessels in the last three weeks was reported by Secretary of the Navy Knox today, while American commanders told of attacks by sea and air against enemy bases from Parau-shiro to Rabaul.

Knox coupled his disclosure of heavy Japanese shipping losses with the warning that "there is nothing to justify any estimates of an early end of the war in the Pacific." At his press conference, he spoke of undue optimism as the result of the audacious assault on Truk, Nipponese naval stronghold in the central Carolines.

The 92 Japanese ships destroyed by American ships, planes and submarines apparently included the 19 listed as sunk in the Feb. 16-17 carrier strike at Truk, as well as other successes previously reported in communiques.

U. S. soldiers and Marines captured stubbornly-defended Eniwetok island while air and surface units pounded adjacent Parau Island to put the finishing touches on the successful six-day old invasion of Eniwetok atoll at the western edge of the Marshalls.

Japs Lose 44 Ships In Week

In a new victory against weakened enemy shipping, Gen. Douglas MacArthur reported American air patrols destroyed nine enemy freighters and escort vessels as they attempted to flee Rabaul, New Britain. A 6,000-ton Japanese vessel was sunk at Wewak, New Guinea, to bring enemy losses for one week to 44 ships in the Bismarck archipelago area alone.

Completing a cycle of potent attacks on Japanese positions throughout their system of Pacific bases, navy fliers returned to the Kuriles chain to bomb Parau-shiro and Shumushu islands at the far northern end of Nipponese home territory. Not a plane was lost.

More than a thousand miles to the south, army and navy planes dashed airfields, strafed shipping and hit ground installations in raids on three Marshalls atolls still held by the Japanese. Warships the same day shelled other enemy-held positions in the mid-Pacific group of coral islands threatened by American capture of Kwajalein and invasion of Eniwetok.

Associated Press Correspondent William L. Worden, in a Feb. 21 dispatch from a Cleveland post, said campaign differed from previous actions in the Gilberts and Marshalls because of less naval artillery preparation. Even so, Admiral Chester W. Nimitz said American casualties to last night were only 150 dead and 350 wounded, against an undetermined but undoubtedly higher enemy toll.

TWO AIRCRAFT PLANTS RAZED

Yank and British Raiders Crush Big Factories In Western Germany

LONDON, Feb. 22—The first coordinated air attack against Germany from bases in the United Kingdom and Italy was carried out today, with planes from the south and west hitting aircraft factories and other targets. U. S. Army headquarters announced.

The combined assault was made by the U. S. Eighth and 15th air forces, and was "the third major daylight bombing operation in as many days aimed at destruction of Germany's capacity to maintain an aerial defensive against further bombing," the announcement said.

The U. S. air attacks on Germany yesterday carried to new heights and allied offensive against the Reich in which approximately 5,000 planes have dropped nearly 8,000 tons of bombs in less than two days.

The assaults were carried out with a loss of 15 U. S. bombers—roughly one and one-half per cent of the force dispatched. Five fighters failed to return. Escorting Mustangs, Thunderbolts and Lightnings destroyed 33 Nazi planes. The toll of the bomber gunners has not been tabulated.

THOMAS DOUTT, 83, DIES IN HOSPITAL

Thomas D. Douth, 83, of the Ellsworth rd., former Buckeye Engine Co. machinist and retired farmer, died at 5:55 p. m. Monday in the Central Clinic following nine weeks illness of complications.

Born in Butler county, Pa., Sept. 7, 1860, the son of Margaret Thomas and John O. Douth, he had lived here since 1880, coming from Pennsylvania. He was employed for 30 years by the Buckeye Engine Co. and since then had been a farmer. He was a member of the Presbyterian church and a past master of Goshen grange. His wife, Clara England Douth, preceded him in death 10 years ago.

Surviving are a daughter, Mrs. Howard Rees of Pittsburgh; two sons, Sterling T. Douth of Atlanta, Ga., and Fred V. Douth of Canton, N. C.; three sisters, Mrs. Frank Starns, Ellwood City, Pa., Mrs. C. D. Carr and Mrs. H. A. Walton of Salem; and a brother, John S. Douth of Salem.

Funeral service will be held at 1:30 p. m. Thursday at the Arbaugh-Pearce funeral home, in charge of Dr. R. D. Walter. Burial will be in Hope cemetery. Friends may call at the funeral home Wednesday evening.

Recovers Abandoned Car

LISBON, Feb. 22—Deputy Sheriff Cornelius Czepek this morning recovered a car abandoned on the Salem rd., north of here. The auto had been stolen at 2 a. m. in Jefferson county from Roy Stockman of East Liverpool.

Lenten Rites Planned At Emmanuel Lutheran

Special services are planned at the Emmanuel Lutheran church on Sundays and Thursday throughout the Lenten period, opening with Ash Wednesday tomorrow.

Sunday morning programs at 10 a. m. will be on the theme "Love Flows Down From the Cross." "Our Suffering Savior" will be the theme of the Thursday services at 7:45 p. m. Rev. John Bauman will be in charge.

The schedule and topics follow: Feb. 27, "For the Heavenly Father"; March 5, "For the Holy Scriptures"; March 12, "For a Lost World"; March 19, "For His Beloved Friends"; March 26, "For the Redeemed Church"; April 2, Palm Sunday confirmation service.

Feb. 24, "The Betrayal of Jesus"; March 2, "Offended at Jesus"; March 9, "The Sorrow of Jesus"; March 16, "The Trial of Jesus"; March 23, "Sins of the Fathers"; April 6, Maundy Thursday communion rites and sermon, "The Last Will of Jesus."

Churchill Promises Heavier Bombs As Invasion's Prelude

(By Associated Press)
LONDON, Feb. 22—Prime Minister Churchill told the world today that Allied bombing far beyond anything yet "employed or indeed imagined" would strike Germany in every corner in prelude to the final smashing by American and British invasion armies of "approximately equal" power.

The three great allies still stand "absolutely united" and "none of the ground made good at Moscow or Teheran" has been lost despite disquieting articles in the Soviet press, the British war leader asserted in a confident but cautious war review in commons.

The Allies stand united on war plans which make certain a victory that "may not be so far away," he declared.

Churchill said he could neither

guarantee the war would finish in Europe this year, or extend into 1945, and declared Hitler still is in "full control" in Germany, with 300 divisions in his army.

Half Million Nazis In Italy
Half a million Nazis are fighting in Italy, and "Hitler evidently has decided to defend Rome with the same obstinacy as Stalingrad." But Allied leaders are confident of success, and reinforcements are pouring in from Africa.

Other highlights of Churchill's first war review since the Teheran and Cairo conferences:

Air Offensive: The U. S. bomber force in Britain "now begins to surpass our own and soon will be substantially greater still." This air campaign against Germany will reach a scale "far beyond the dimensions of anything which yet has been employed or indeed imagined," with long-range bombers hitting Germany from Italy as well as Britain.

Retaliation: "The Germans are preparing on the French shore new means of attack on this country either by pilot-less aircraft or possibly rockets or both on considerable scale," but vigilant Allied air commands are "striking at all evidences of these preparations."

Sees Americans Stronger
Invasion: While the British and American forces will be relatively equal at the outset, if this battle is prolonged "the continuous flow of Americans would make their force the greater."

Italy: The "forces in the bridge-head are well matched," but "we

NAZIS ARE HALTED BY COUNTERBLOWS

Positions Along Beachhead In Italy Unchanged; Savage Clashes

(By Associated Press)
ALLIED HEADQUARTERS IN NAPLES, Feb. 22—Heavy artillery barrages and small but fierce infantry clashes marked the fighting yesterday in the Allied beachhead below Rome, where, Fifth Army officers said today, savage American and British resistance and their counter-attacks definitely have beaten the Nazi all-out drive to push the Allies into the sea.

American front-line troops and the Germans fired everything they had at one another at two points yesterday, but neither side gained any ground and positions all along the beachhead remained unchanged. This was equally true after British troops clashed with the Germans in several local fights near the key junction of Carroceto.

Allied artillery, in a fierce exchange of fire throughout the day, shelled German infantry and tanks forming up around Aprilia, "factory" east of Carroceto and apparently broke up preparations for a renewed enemy attack. None developed.

As another day passed without decisive actions either on the main front around Cassino or at the beachhead, Fifth Army spokesmen interpreted relaxation of German pressure against the beachhead as meaning the German offensive to erase it had failed for the second time since the Allies landed below Rome just a month ago.

Allied airmen attacked German positions ringing the beachhead and struck at enemy shipping and communication lines. Three German planes were shot down without any Allied loss.

German Mosquito torpedo boats attempted to dash into Nazio harbor and strike at Allied shipping there under cover of darkness Sunday night, only to be driven off by American naval patrol craft. One E-boat blew up after it was hit and Allied officers believed another was driven ashore.

The lull in fighting left approximately 190 square miles of the beachhead in Allied hands.

Salem Girls Finish Training In WAVES

Two Salem girls who have completed basic instruction in the WAVES at Bronx, N. Y., have been ordered to new stations for advanced training and one has been assigned to a Cleveland post.

The Seaman Second Class Dorothy M. Dunlap, daughter of Mr. and Mrs. L. W. Dunlap of Leetonia, will go to the U. S. Naval hospital in St. Albans, N. Y. Miss Dunlap formerly made her home with Mr. and Mrs. Percy Tucker, Tenth st.

Miss Eleanor Ruth Schultz, apprentice seaman, daughter of Mr. and Mrs. Henry Schultz of W. Eighth st., will be sent to Cedar Falls, Ia., to receive additional work at the Iowa State Teachers college.

Mrs. Grace Daniels Mohr, wife of Staff Sgt. Carroll D. Mohr of Barksdale field, La., has been assigned to duty with the bureau of supplies and accounts, Cleveland. Apprentice Seaman Mohr is the daughter of Mr. and Mrs. A. E. Daniels, R. D. 2, Salem.

Nation's Manpower Needs Still Critical, Is Report

CANTON, Feb. 22—The nation's manpower needs are still critical and an additional 900,000 war workers will be needed by July 1, declares E. L. Keenan, Ohio Director of the war manpower commission.

"There is, and there will be, so long as we are fighting on two fronts, a definite shortage of male labor," the WMC official asserted in an address last night before representatives of management, labor and federal agencies.

Keenan told the group "the handful of workers released by cut-backs are absorbed all too quickly" by other plants.

Mrs. Gandhi Dead

LONDON, Feb. 22—Mrs. Mohandas K. Gandhi, wife of the Indian leader, is dead, the New Delhi radio said today.

Mrs. Gandhi, 74, had suffered intermittently from heart attacks at Poona where she was detained with her husband.

Mrs. Gandhi was married to Gandhi when they both were only 13 years old.

A frail little woman, she lived a quiet and retiring life.

BLAME PLACED ON CONGRESS BY PRESIDENT

Roosevelt's Veto Message Describes Tax Bill As Wholly Ineffective

(By Associated Press)
WASHINGTON, Feb. 22—President Roosevelt tossed the \$2,315,000,000 tax bill back to Congress today with a veto message in which he described it as "wholly ineffective" and a relief measure "not for the needy but for the greedy."

In a message to the House, already rumbling with talk of overriding the veto, Mr. Roosevelt said the legislation was "replete with provisions which not only afford indefensible special privileges to favored groups but set dangerous precedents for the future."

He said this tendency in itself was sufficiently dangerous to counter the loss of "a very inadequate sum" in additional revenue. He calculated the bill would enrich the treasury by less than \$1,000,000,000 net a year.

Blames Congress
The President, recognizing widespread complaints over the complexity of income tax forms, took occasion to lay the blame on Congress.

He said it was squarely the fault of the legislators in using language in drafting tax legislation "which not even a dictionary or a Thesaurus can make clear."

The chief executive said he hoped Congress would act as quickly as possible to simplify tax laws which in turn would make possible simplification of forms and computation. Taxpayers engaged in an effort to win the nation's greatest war, he declared, "are not in a mood to study higher mathematics."

Mr. Roosevelt had asked Congress for \$10,500,000,000 in additional taxes, and he noted that some prominent persons had stated the figure was too low. Apparently he referred to Wendell L. Willkie's suggestion for a \$16,000,000,000 tax bill.

In vetoing the bill, Mr. Roosevelt said he regarded his action as in the public interest. He noted that it "would provide \$2,315,000,000 in new revenues" and grants relief from existing taxes which would cost at least \$150,000,000 to the treasury. It cancels out an increase in the social security tax, he said, which would yield \$1,100,000,000.

Can Pay Increases, He Says
The social security freeze, the president said, would come at a time when industry and labor can best adjust themselves to the increase. He said it seemed unwise to provide for termination of war contract renegotiation authority next Dec. 31, as the bill would do. More experience is needed, he said, to determine when a time limit should be fixed.

He criticized as "inept" a provision for appeals to the tax court, declaring the court did not have personnel to handle the load.

Holding out an offer to approve bill which would enact the excise taxes provided in the vetoed measure, Mr. Roosevelt referred to those as "wholly unobjectionable" tax increases.

THE MIDDLE OF NOWHERE

Glib mention of distances used in communiques from the Pacific does not mean that the distances are comprehended. The fact is, they frequently are ignored altogether. Thus, United States forces thrown against Truk on a Wednesday assert themselves on Friday at a pinpoint called Eniwetok, lying to the northeast—750 miles to the northeast, which happens to be the air line distance from Cleveland to Omaha.

Those of us who began to think of Tokyo when bombs fell on Japanese ships and installations at Truk would do well to remember that Tokyo is as far from that naval base as Spokane is from New York City. Manila, incidentally, is about the same distance from Truk. And from our own major naval base at Pearl Harbor to Truk is half again as far—3,200 miles.

From Luzon, in the Philippines, to China is a good 700 miles, or as far as from Chicago to New York City. And from there to Yokohama is 1,600 miles, more than the distance from Pittsburgh to Denver. Wake island, being bombed apparently from Kwajalein in the Marshall Islands, is more than 600 miles away, the distance from Cincinnati to Omaha. And in the Marshall Islands, themselves, it is 400 miles from Kwajalein in the center of the group to Eniwetok on the perimeter. That is as far as from Cincinnati to Baltimore.

Even the comparisons seem meaningless after a while. The best measure is a familiar American phrase: In the middle of nowhere. That is where the United States is fighting in the Pacific.

BARUCH PROPOSES CONFIDENCE

The value of Bernard M. Baruch in our democracy lies chiefly in the confidence he commands. His record is good. He has made more right guesses than wrong ones. He has been identified with politicians, but not with politics. He likes tough jobs and has performed them well when he has been asked to do them. His thinking has been reasonable and objective. He has lived up to a high personal concept of public duty.

The proposed plan he has submitted jointly with John M. Hancock is blessed at the outset with confidence in Mr. Baruch. Mr. Hancock, an industrial banker, while less well known as a public figure, is widely known and respected in business circles. Mr. Hancock, incidentally, is a Republican.

Theme of the Baruch-Hancock recommendations is simple and brief: There is no need for a post-war depression. In other words, a depression is not predestined; it would be the result of national failure to do what should be and what can be done to avert it. If government, ownership, management and labor will face their common problems now, with confidence in their joint ability to solve them, the problems can be solved. The bright future which Americans can imagine can become reality.

This is the remarkable thing about the Baruch-Hancock plan: It is nothing more or less than a restatement of the everyday beliefs of the great majority of ordinary Americans. It has the merit of simplicity, like all good plans. Like all good plans, furthermore, it does not seek to impose new and complex patterns of thought and action, but merely to bring into effect established ways of doing things which people can comprehend out of their own experience.

Americans must have confidence in their ability to do what they want to do—their ability to convert their efforts from war to peace, their ability to make an honest living for themselves and their families.

Their government must withdraw the wartime restraints placed on the people and liquidate as rapidly as possible the war production projects which must be cleared away before peace production projects can be started.

Business must be made as free from restraints of its own creation as from restraints imposed by government; free enterprise must be kept free.

Planning must be expedited by schedules established in advance for post-war taxation on business and the extent of reconversion which is to occur after Germany's defeat.

Coordinating authority at least as strong as that maintained for conversion from war to peace production must be established for the harder job of reconversion.

Public works must be readied for filling in employment gaps.

Meanwhile, the winning of the war must be accomplished as quickly as possible by an intensification of effort—an intensification leaving no more room for exorbitant profits by ownership than for work stoppages by labor.

Greatest merit of proposals like the Baruch-Hancock plan is that they give critics something to shoot at. National thinking is brought to bear on a single target. This plan will stand a lot of shooting, because it is a tough composite of the common sense of the American people. It is never easy to shoot holes in common sense.

THE STARS SAY:

For Wednesday, February 23

AFFAIRS CONTINUE Under highly accelerated pace, both in a practically constructive direction and under the impetus of unusual skill, innovation and ingenuity, in which workaday problems may be planned as satisfactorily as inspired, intuitive or psychic promptings. Keep within bounds of reason and logic, thereby gaining the support of elders, superiors and these in advanced positions, who may be disposed to be generous with practical and workable ideas and programs. Keep in sturdy and enduring grooves even while attacking unusual, peculiar or experimental tasks. Friendship and romance should give great joy and satisfaction, with festivities and conviviality.

Those whose birthday it is may prepare for a year of great advancement upon cherished goals and objectives, with assistance from elders, superiors and those in place and power. These may be found ready to give substantial support to worthwhile projects even though they may be born of idealistic, singular or experimental flights into science, art, invention or other exceptional grooves. Merit and reasonable bases should claim rich rewards, possibly to the extent of inheritance, bequest of other solid endowments. In personal relations friendship, romance and hospitality are happily stimulated.

A child born on this day while having high ideals and aspirations, yet may be practical and creative in solid and serious exploits or experiments. It may have recognition and rewards from those in power and prestige.

OHIO CITIES REDUCE DEBT

COLUMBUS, O., Feb. 22.—Ohio's political subdivisions had reduced their debts by more than \$366,300,000 since the start of the depression in 1939 to the end of 1942, the annual report of state auditor Joseph T. Ferguson showed today.

This debt cutting gave the subdivisions almost \$15,000,000 more to spend in 1942 for general purposes or to effect savings, calculating the amount saved in charges at the average rate of 4 per cent.

The total debt of all subdivisions, county, municipal and school districts in 1930 was \$976,901,771. In 1942 it had been cut to \$610,768,027.

Counties probably made the greatest percentage reduction in the debts for the 12-year period. Starting in 1930 with debts of \$170,320,263 the total had been cut to \$52,376,002 at the end of 1942. Eight counties, including Galia, and Highland, were without debt in 1942. Three—Champaign, Fairfield and Fayette—had none in 1930.

The 115 cities reduced their debts by more than \$105,000,000 in the 12 year period, from \$482,553,936 to \$377,177,326.

All school district debts were slashed from \$238,900,636 to \$126,896,428.

Of the eight largest cities only Youngstown showed a debt increase during the 12 years, from \$7,748,892 to \$8,710,380. Cleveland just did get in under the reduction wire by whittling its debts from \$127,359,558 to \$127,269,752.

Reductions of other large municipalities included: Canton from \$10,901,771 to \$3,821,930.

RED CROSS DAY

NEW YORK, Feb. 22.—It will be "Red Cross Day" on all networks next Tuesday from sign-on to sign-off. The purpose is to help in getting under way the 1944 war fund drive with a goal of \$200,000,000 which is to continue through March.

Each program on the day's schedule is to have something to say or do about the Red Cross, with here and there special broadcasts entirely Red Cross.

Among the specials is the appearance of Tallulah Bankhead in a repeat performance of "I Served on Bataan" for the NBC words at war. Also NBC is to present "The Red Cross Serves" as a two-way broadcast between this country and some of the world's battle areas. Still another is a special drama produced by William N. Robeson for CBS.

Reducing Diets Still In Order

By LOGAN CLENDENING, M. D.
I thought last year about this time that I would not have to publish a Lenten reducing diet this year. What with rationing coming in, and warnings from Washington

Dr. Clendening will answer questions of general interest only, and then only through his column.

that we would all have to sacrifice our appetites for our country, and the walls from my gourmandizing friends, I expected to see the population shrink under my very eyes.

I recalled the stories after the last war of how the soldiers at the army of occupation going into Germany found it noticeable that the traditional figure of the fat burgher and hausfrau were conspicuous by their absence, and the Germans were all thin and averse. A life insurance official told me at the time that the mortality rate in Germany for a time fell off, which he ascribed to the compulsory weight reduction of so many mature, heavy, potentially high blood pressure subjects.

Plenty of Food

But the old saying that the worst tragedies in life never happen applied here. Our gloomy expectations of hunger have certainly not been fulfilled in spite of the menace of coupons, the scareheads of impending shortages, and the temporary removal of chicken and other delicacies from the scene from time to time. Making a strictly personal application I have certainly had enough to eat this year. I give all credit to my household which has displayed great ability in shuffling coupons, but I also give credit where it is seldom offered—to the National Food Administration.

Now, looking around at the contours of my fellow citizens I see no reason for omitting the Lenten reducing diet this year. If you, my esteemed reader, need convincing I refer you to the pages of a national weekly magazine where the example of Mr. Alfred Hitchcock, the movie director, is portrayed in photographs. Mr. Hitchcock felt the necessity, or at least the call, to reduce, here in this land in the period of wartime rationing, and in 8 weeks he went from 295 pounds to 238.

Reducing By Dieting
I emphasize the statement made in the article—"Reducing Was Done Entirely By Dieting." No drugs, no trick injections, no appetite killers—like amphetamine—no excessive exercise and gymnastic workouts. That is my credo. I believe 95 per cent of overweight can be reduced by dieting alone. And not entailing any great discomforts or self-sacrifice, as you will realize if you try the Lenten

diets to be published daily in this column until Easter. Mr. Hitchcock lost 47 pounds in 56 days. During Lent you have over 40 days and you should be able to shed at least 20 pounds.

There is one striking advantage to dieting just now—it saves wear and tear on the ration book. Most of the foods ordered do not require points. There is no reason why the candidate for the sylphlike figure should apply for special privileges to his or her food rationing board. The diets are calculated to supply full daily requirements of vitamins and minerals. Why should you spend four dollars for a bottle of vitamins when you can get what you need in an orange, an egg, a carrot, a tomato, and a slice of buttered bread?

QUESTIONS AND ANSWERS

M. E.—Is there any harm for a pregnant woman having a tooth pulled?

Answer:—No, if proper consideration is given to disturb her as little as possible. The pregnant woman should visit a dentist regularly.

Exam For Appointment to Annapolis Set for Mar. 4

Congressman Earl R. Lewis announced today that the Civil Service Commission will hold a special competitive examination at Steubenville on Saturday, March 4, to select a principal and three alternate candidates for appointment to the Naval Academy at Annapolis.

The vacancy was created unexpectedly by the release of a student there from the 18th Ohio district.

The successful candidates on the competitive exam will be named principal, first, second and third alternate in the order of the grades they make and must qualify mentally and physically under the general rules of admission to the United States Naval Academy. The regular and substantiating mental examinations for entrance to the academy will be held April 19.

Candidates must be residents of the 18th Congressional district (Belmont, Carroll, Columbiana, Harrison and Jefferson counties), be citizens of the United States and must be not less than 17 years of age nor more than 21 years of age on April 1 of this year.

Any boy wishing to take the exam should write Congressman Earl R. Lewis, House of Representatives, Washington, D. C., and obtain a letter admitting him to take the exam.

Boys in the armed services are eligible and if they or members of their families will notify Congressman Lewis arrangements will be made through their commanding officers for the examination to be given them wherever they are stationed.

Nylon Thread Seen Ending Hosiery Runs

(By United Press)
CHICAGO—The nylon stockings the ladies gave up to the war are keeping Army transport gliders in the air, says Hilton Ira Jones, president of the American Institute of Chemists.

Since the war began, the inventors of nylon have worked out a new wrinkle that threatens to put the stocking run members out of business. Nylon threads, knitted into a stocking and stretched slightly over a hot cheese-cake form, Jones said, will mold themselves together wherever they cross. It's the perfect answer to the runny stocking problem, said Jones.

But while nylon may enhance American women's legs in a post-war future, it's doing a strictly utilitarian job now.

"Twisted together in a rope, it is the one substance that, hooked to the business end of a glider, will stretch just the right amount and then succeed in lifting the glider into the air behind its pilot plane," Jones said.

"After the war you'll be using nylon for screens on your home," Nylon screens, Jones believes, will not rust, and when the baby pokes a pencil through it, the threads will spring back into place.

Jones predicted that the kinds of nylon will be greatly increased after the war. Already it has appeared in tooth and hair brush bristles, as well as wearing apparel, but there is practically no limit to the variety of fibers it can be made into, he said.

Air-WAVES "Grease Cuties" Learn To Keep 'Em Flying

By VIVIAN BROWN
AP Features Writer

FLOYD BENNETT FIELD, N. Y.—A faint scent of roses emanated from the fuselage of a "Hell Cat" into which I stuck my nose at this Naval air base.

Otherwise, I would never have guessed right off that these WAVE grease cuties—patching, checking and repairing a bomber or a pursuit ship—were former stenographers, salesgirls or debutantes.

To learn whether all's fair in love and the Air WAVES, I joined 251 WAVES at Floyd Bennett field for a day.

A stocking cap, sweater and jacket

like brother mechs wear are all part of the feminine regalia. The trousers are close-fitting and hip-slugging. In a few hours, I learned that no one really cares about your hips, except possibly yourself. This makes the necessity of bending, lifting and scrambling aboard ship a lot easier.

"Most of us have forgotten about girdles," pipes a petite blonde. She believes her hips are slimmer because of the WAVE physical education program, which includes exercise and posture development.

Pretty Emma Smithers, a Teaneck, N. J., girl whose only experi-

ence with tools was in a Victory garden last summer, had "carburetor trouble" at first. "I'd get all mixed up in jets and valves," says she.

Today, she showed me with the ease of a veteran mechanic how to disassemble a hydraulic pump.

"Poor little me," sighed a brunette. "I checked out a parachute the first day—grabbed it by the wrong handle (rip cord) and whammo, there it was all over the deck."

Your heart may jump into the pocket of your jacket, as mine did, the first time you see a plane rolling towards you. It takes you by surprise and takes your breath, too. Instinctively, as all amateurs do, I held up my hands to indicate that it should back up.

"That," said Carolyn Chapman, "is something you must never do."

Hands and arms, she explained, are

rudders. You hold the left hand steady and wave the right hand to bring the plane around to the left.

Most of the girls could fly, they say, with very little additional training. They study the theory of flight but the most they do as pilots is to warm up the planes.

All are tremendously proud of their own ships. Seaman First Class Mary Jane Allen is busy scrawling "Jackie" on one, to identify it as "her plane". This is the good luck feature that precedes the pilot's test hop. The girls follow its flight until it is back in the hangar.

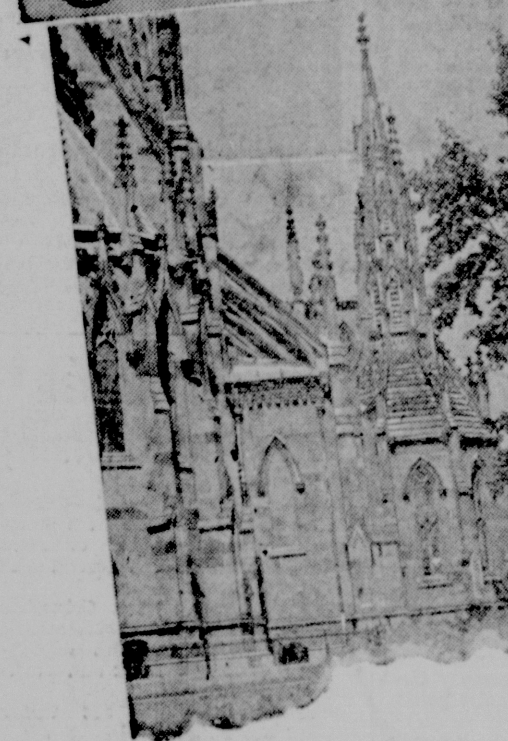

A former Boston debutante whose father is a judge, "Jackie" deserted tea parties and charge accounts to find a new life.

"I also found an English naval officer with an engagement ring," she beams.

In fact, romance is flitting over this base.

CAPITAL ATTORNEY HELD IN SHOOTING

Noted Psychiatrist Dead,
Slayer's Wife Report-
ed Near Collapse

WASHINGTON, Feb. 22.—Robert I. Miller, 67, dean of Washington municipal court attorneys, was held on an open charge today in connection with the fatal shooting of a noted capital psychiatrist while Mrs. Miller, whom police described as one corner of a love triangle, was near collapse.

The dead man was Dr. John E. Lind, 57, a kin of Abraham Lincoln, and senior medical officer at Washington's St. Elizabeth's hospital. Police said Mrs. Miller, who gave her age as 42, had entered Lind's automobile at the corner of 11th and G streets, Northwest—the heart of the capital's shopping center—about 1:20 p. m., yesterday. Almost immediately, Miller appeared, reached into the car, struggled with Lind and Lind was shot, once through the temple and again through the chest.

Detective Sergeant Robert Murray, reported Miller told him he had not in self-defense, said in addition to the pistol used in the shooting another was found on the seat of the car beside Lind, wrapped in an envelope.

Traffic Policeman Ernest B. Dickerson arrested Miller and detained Mrs. Miller as a material witness. He said Miller, when arrested, had been holding a .38 caliber pistol.

Both Miller and Lind had appeared in municipal court yesterday, Miller as defense attorney in a drunk-driving case, and Lind as an expert witness in another case.

One of the best known attorneys in the capital, Miller was active in politics and was a delegate to the Republican national conventions in 1912 and 1916.

Dr. Lind, on his mother's side was a fourth cousin to Nancy Hawks, mother of Abraham Lincoln. He was an accomplished translator of medical works and a writer of children's songs.

Chooses Mate from Hat

LAWRENCE, Mass.—Last March the Rev. Bernard T. Drew, pastor of the Lawrence Street Congregational church, instigated a letter-writing campaign among the girls in his young people's fellowship to boost the morale of home-town boys in the service.

Miss Gloria E. Oakes, 21, one of the group, thrust her hand into a hat filled with names and came out with that of Sgt. George E. Fenton, Jr., 25.

The other day Sgt. Fenton came home on furlough, met Miss Oakes for the first time — and married her, with Mr. Drew officiating.

RED CROSS CHAPTER'S PART IN WAR

Blood Donor Is Important Service

Perhaps the most widely publicized Red Cross service, and the one in which the public most directly and most often participates, is the Blood Donor work, supplying life-saving plasma to wounded and sick of the armed forces.

The local work of the service was not established until May, 1942, but since that time Salem has contributed 1789 pints, almost equalling the number which Youngstown has contributed in the same period of time.

The Cleveland mobile unit has made 13 visits here, the latest one being yesterday and today. Mrs. L. D. Cessa is chairman of the blood donor work.

Plasma, the liquid part of the blood in which the corpuscle floats, is processed from the pint of blood each donor gives. In the powdered form of plasma or as serum albumen, the two substitutes for blood requires neither refrigeration nor typing and are easily shipped to the many battlefronts of this war for emergency transfusions.

Detailed Arrangements
The chapter announces hour for registration and for a week before the unit's visit, volunteers call at the donor office in the Memorial building.

Staff assistants, trained to carry on the clerical and record work of the donor service, take the name and address of the caller and note the time he or she prefers the donation. If the caller is a new donor, a card is made out for the permanent files giving information as to the availability, general health, address and phone number. Staff assistants must locate the caller's record, if he is a former donor, giving information on his service and other facts which doctors and nurses on the day of the donation may require.

An appointment card is sent the caller as soon as registrations are completed and a chart compiled, in duplicate, for office records, for nurses and doctors, for staff assistants and for canteen workers who furnish light lunch to donors.

12 Donors Every 15 Minutes
Nurses and doctors in charge have an idea of the number of donors expected, staff assistants controlling the influx and after-donation

attention given volunteers and canteen workers must know for how many to prepare food.

Appointments are arranged so that 12 donors are received every 15 minutes since actual donation requires only about that long.

The schedule for the day is made out in duplicate by assistants, for those workers named and to inform Motor Corps members how many donors they must call for where to get them and return them after the donation is made.

Doctors and nurses must also be notified when appointments are made to permit them to utilize their precious time to the best advantage.

Always before and on donation days, cancellations are made and new donors must be located and their appointments arranged.

On the day arranged for the blood gift, the donor must remain to avoid eating fatty foods for three hours before his appointment. Fat in the blood prevents its drying and retards its conversion into plasma. He may eat fruits, fresh vegetables without dressing and a variety of foods which are listed on the card he received notifying him of his appointment time.

Given Blood Test

The donor, arriving at the headquarters set up by the mobile unit in the Presbyterian church, is given a blood test—the finger-pricking which invariably startles the donor and amuses the nurse. He is given respiration and blood-pressure check by one of the local doctors assisting the mobile unit's staff of specially trained doctors and nurses. While he waits for admission to the donation room, he is served orange juice and perhaps a salt tablet, which aids the body in immediately making up the liquid lost by the donation.

Then, summoned for the donation, he enters the room where two rows of beds are arranged. He is conducted to one of them where he reclines during the donation. When the required pint of blood has been transferred to the glass container in which it is stored until its conversion, he is taken to the adjoining room where canteen workers serve sandwiches, a beverage and cake, if he desires it.

Workers have found that donors experience pride in donating which increases with the number of blood-gifts they make.

Some Nine-Time Donors

After the donor has rested and eaten the lunch, if he has no other transportation back to his home or place of business, motor corps members drive him there. Corps members are from Salem, Lisbon, Winona and Hanoverton.

Silver and gold pins and other awards are given to donors of five or more pints. Salem has many five time, six-time and seven time donors and is proud of the few who have given eight and nine times.

The staff assistants who aid in the work of the unit are from Salem, Leetonia, East Palestine and Columbiana. They and the Nurses Aids, Motor Corps members, canteen workers give many hours to this Red Cross service.

The Red Cross blood donor service is the agency which brings the civilian and the fighting man together in this war and civilians who fight the homefront battle can, through its work, also fight on the actual battlefield.

Inducted Into Army

LISBON, Feb. 22.—James S. Howard, Jr., of Lisbon, went to Cleveland today for induction into the army, completing the Negro draft call from this district for February.

The first battle fought by Americans under the Stars and Stripes was the Battle of Oriskany, Aug. 6, 1777.

Parasites Cause Loss To Livestock, Poultry

CHICAGO—The American Veterinary Medical association estimates that livestock and poultry parasites annually cause damage of more than \$275,000,000.

"External parasites of poultry alone cost \$85,000,000 worth of poultry meat and egg production every year," the association said.

"Cattle grub ruins \$65,000,000 worth of hides annually. Internal parasites of farm animals cost \$125,000,000 per year by preventing proper livestock gains, by feed wastage, and by disease losses."

The range of the early piano was only four octaves.

BUCKEYE VETERANS ASSURED OF JOBS

Program Is Developed To
Turn War Plants Into
Private Operation

COLUMBUS, Feb. 22.—The Ohio Development and Publicity commission reports post-war jobs for Buckeye veterans will be insured under a program being developed for conversion of federally-financed Ohio war plants into peacetime, private operation.

"A cross-section of the industrial labor brains of Ohio and nearby states have been drafted to do all possible to keep plants whose present occupants may vacate them after the war from closing down," Commission Chairman H. H. Hampton said following a meeting of railroad, power utility and labor representatives here yesterday. Hampton is vice president of the Nickel Plate railroad.

"We plan to determine the five best private industrial uses for such plants before the war ends so that if they are to be vacated it will not be so difficult to find new occupants," Hampton reported.

The program will be designed to insure post-war jobs for returning servicemen as well as other workers, he added.

Members of the committee in charge of the program are: George F. Weston of Cleveland, Erie railroad; C. B. Morin and R. W. Osterholm, both of the Ohio Power Co., Canton; J. B. Slemmon of Pittsburgh, Pennsylvania railroad; H. C. Atkinson of the Akron, Canton and Youngstown railroad, Akron; David C. Boy of Huntington, W. Va., the Chesapeake and Ohio railroad; L. H. Duncan, of Roanoke, Va., Norfolk and Western railroad; Chester K. Sterrett of the Cincinnati Gas and Electric Co.; Floyd Lewis of Cleveland, New York Central; Robert Heintz of the Cleveland Electric Illuminating Co.; J. Clayman of the CIO and Phil Hannah, secretary of the Ohio Federation of Labor.

Electronic Phone System For Train Communication

Establishment in practical operation of a two-way electronic train telephone system, permitting continuous verbal communication with moving trains, between trains and between the head and rear of trains was announced today by the Pennsylvania railroad.

The initial installation has been made on the 67-mile Delaware branch, running northward from Trenton, N. J. Officials stated that, while not yet adapted to general use, the new means of communication has now definitely demonstrated its capability of adding materially to the efficiency of controlling train movements.

This unique system, the only one of its kind so far established, has been applied to the freight service on the branch. It permits the crews of freight trains and block operators in wayside towers to talk to one another at any time for the transmission of orders, reports and information on matters affecting train operation. The conductor in the cabin car and the engineer in the locomotive cab may also talk to each other at will, and the crew of one train may communicate with the crew of another several miles distant.

The new system utilizes electrical principles employed in both radio and the wire telephone.

The War Today

By DeWitt MacKenzie

(Continued from Page 1)

ly Truk's value as a major base has decreased immensely as we have taken over one after another of the smaller island bases in the eastern and southern rim of the wheel of which Truk is the hub. It should be noted that Truk has been not only a stronghold but the huge supply and repair center for the cutting island defenses.

Despite all this it could be a mistake to assume that Truk's value already has been nullified. It still remains the main barrier to our progress towards the Philippines and Japan proper, and so long as it operates in strength it will provide support for numerous other island bases like Wake, Ponape, Guam, Bonin and Marcus.

However, Adm. Nimitz reports that we have captured Eniwetok island, in the important atoll of that name in the Marshall group, which means we are getting ahead nicely with our conquest of the entire atoll. This will give us an invaluable air-base from which to strike at other islands. As we move forward to fresh footholds, so will the Jap island structure collapse. Truk either will be in our hands or will be impotent so that we can by-pass it.

John W. Hundertmark

Funeral service will be held at 2:30 p. m. Wednesday at the Stark memorial for John W. Hundertmark, Salem violinist and veteran band director, who died Sunday at his home, 424 W. State st.

Mr. Hundertmark was a member of Quaker City band for 30 years and served as its director for 15 years. He had been employed as a draftsman for many years at the Mullins plant and also at the Electric Furnace plant.

Fertilizer Supply Expected To Meet Year's Crop Demand

(By United Press)
NEW YORK.—Fertilizer requirements for the current crop year, expected to exceed 11,000,000 tons, will be met provided present allotments of raw materials are met, Dr. Charles J. Brand of the National Fertilizer association, writes in "Industrial and Engineering Chemistry."

Sufficient nitrogen has been promised the industry to meet all demands, though not always with the particular material desired, Dr. Brand said. Shipping arrangements have not been completed for the Chilean nitrate of soda requested by the government which forms a large part of the estimated nitrogen supply, but it is expected that the minimum requirement, at least, will be fulfilled. The largest amount of the estimated supply will come from synthetic production in the United States and Canada.

Superphosphate production is continuing to increase, Dr. Brand said, and potash will be available in about the same amount as 1942, 10 percent more than this year.

It is expected that difficulty in obtaining minor fertilizer elements such as manganese, zinc and copper, will be lessened as war needs and inventories become satisfied, Dr. Brand said.

Increased farm income and increased demand for farm products have contributed to the rising demands for fertilizer, Brand said. It remains one of the least of the farmer's expenses, he said, yielding an average \$5 additional crop value for each \$1 spent on fertilizer.

and aircraft parks and other targets near the Netherlands border also were attacked.

Among airmen hit were those at Bramsche, 75 miles south of Wilhelmshaven; Lingen, 60 miles south of Emden; Vechte; Quakenbruck, 20 miles north of Bramsche; Diepholz, 35 miles southwest of Bremen; and Ahlhorn, 45 miles south of Wilhelmshaven.

Meanwhile, Maj. Gen. Frederick L. Anderson, deputy in charge of the U. S. strategic bombing force in Britain, asserted Leipzig factories producing 38 percent of Germany's single engine fighter planes were knocked out by Sunday's record raid.

Anderson said the Bernburg plant, producing 30 percent of the Nazis' twin-engine fighters, likewise was knocked out and asserted restoration of the factories at Brunswick had been set back "an additional three or four months."

The fighter kills brought to a record 94 the number of enemy planes shot down by fighters in two days.

DISCOVERY MAY AID BLOOD DONOR PLAN

(By Associated Press)

CHICAGO.—Donors may be able to give blood more often by a new technique of reinfusing them with the red blood cells that remain after plasma has been separated, according to the Journal of the American Medical association. It reports that six volunteers in New York, Brooklyn and Washington were subjected to frequent blood donations, each one followed by a reinfusion of the red blood cells.

While further studies will be necessary, the supervising doctors were able to recommend "that the practice of reinfusion of red cells into the donors be adopted where there is malnutrition in the donating population and/or where a large proportion of donors are women."

Since only the plasma of the blood is needed for the armed forces, the Journal said it might be possible to meet all their plasma requirements with a much smaller number of donors than is now possible under the system of eight week intervals between donations.

Discuss Founding of Home For Blind In County Seat

LISBON, Feb. 22.—A meeting was held here last night by interested persons to discuss the founding of a home for the blind in Lisbon.

Mrs. Mary Burneson, head of the Columbiana county aid for the blind division, said that 90 persons are receiving aid in the county through pensions.

The home, where such persons would be cared for, would be financed by the pooled pensions of the residents.

Twenty people attended the meeting, at which a committee to study the proposed project was named. Members are John Eiferd, C. W. Hendershot and Atty. W. B. Hill of East Liverpool, Atty. George Laflerty of Lisbon and Judge H. W. Hammond of Columbiana.

Tears Up Wrong Speech

DES MOINES, Feb. 22.—The seven men on the speaker's panel at the National Farm institute were asked to keep their remarks brief. When his time came, Dean Homer J. Henney of Colorado State college tore up his manuscript before the audience.

A few moments later he discovered he had torn up instead the manuscript of Fred Ludwig, the speaker sitting next to him.

Being 'Humanized'

THEY ARE beginning a campaign in Germany to "humanize" Heinrich Himmler, Gestapo chief and protector of the Reich. The idea, it seems, is to groom Himmler for Hitler's job. To start the campaign, according to a Stockholm newspaper, 4,000,000 picture postcards of Himmler, showing him in smiling poses, are to be distributed. The newspaper added that Hermann Goering still is the "crown prince" in Germany but few seriously believe he would succeed Hitler should something happen to him. (International)

ANY JAPS IN THE BLOCKHOUSE? BOOM! YES, 20 OF 'EM

A DAY AND A HALF after Namur island, Kwajalein atoll, Marshall islands, had been "secured," a supposedly-silent Japanese blockhouse blew up, bursting a steel door. You can imagine the surprise of the Marines when a Jap soldier stumbled through and 19 more were found inside, 16 of them dead, three injured. There was a large supply of aerial bombs stored inside. The Jap pictured in center here, blown out of the blockhouse by the explosion, sits on the ground as Marines move toward the doorway to take three prisoners. This is an official United States Marine Corps photo. (International)

U. S. Volunteer Ambulance Unit With British In Burma

(By United Press)
CALCUTTA.—The American Field Service, a combat zone volunteer ambulance unit attached to the British forces, is moving to the Burma-Assam front in preparation for the time when Lord Louis Mountbatten's new Southeast Asia Command will begin its campaign to drive the Japanese from Burma.

The field service, America's only front-line ambulance unit composed entirely of volunteers, came to India at the request of Field Marshal Sir Archibald P. Wavell, now India's viceroy, under whom a large unit of the organization served in the Middle East during the early days of the desert campaign.

Approximately 80 per cent of the members are classified in 4-F, are more than 35 years old or are disqualified from selective service for other reasons. Fifteen per cent of the personnel are veterans of the service in the Middle East.

Volunteer James B. Vaughan, 20, Bronx, N. Y., is a staff car driver although he wears an artificial leg. He has "broken" his leg three times in the past month but hasn't lost a day of duty. He is probably the only man with British combat forces in India carrying an extra leg as part of his regular equipment.

Although the 4-F percentage is high in the service, the physical disabilities are of a minor nature—not serious enough to prevent the men from driving and maintaining ambulances and serving as stretchers or bearers. Four of the men, for example, are blind in one eye. Eleven per cent have physical discharges from the American armed forces.

Supported by Public
The service is a non-sectarian organization supported by public donations. It was organized during the World War by Americans living in Paris and was revived with the invasion of France in 1939. The men, who are promised immediate overseas assignment, are paid \$20 a month.

Maj. Chauncey B. Ives, 36 (28 E. 70th St.) New York, is commanding officer in India. He is a veteran of the AFS in the Middle East and served with a volunteer ambulance group in Norway and Denmark in 1939.

Headquarters and training center has been at Poona, within a mile and one-half of the Aga Khan's palace where Mahatma Gandhi is imprisoned. During the recent racing season at Poona many of the men used their free Saturday afternoons trying their hand at Indian pari-mutuel machines, most of them without success. At the races they met Indian princes, including the Maharaja Scindia of Owalior and Maharaja Gaekwar of Baroda, owners of two of India's finest stables.

Cook American Dishes
The AFS is issued rations, uniforms and equipment of British enlisted men. With two members of the organization helping in the kitchen they soon had the Indian cookhouse personnel turning out peach pie, hamburgers, corned beef hash, and other American dishes. There was nothing they could do to disguise tea, which is served four times daily, but most of the men have developed a taste for it.

A distinguishing feature of the AFS uniform is the Australian type felt hat. The AFS added an American touch by equipping the hats with leather chin straps after the fashion of Mexican border cowboys. After a four-week course in me-

Judgeless Court But Lawyers Don't Argue

YOUNGSTOWN, Feb. 22.—Youngstown had a judgeless court Monday with a jury being selected, a \$75,000 law suit begun and witnesses examined by five lawyers without a single argument.

When Judge Erskine Maiden, Jr., called to say he was ill and could not attend court, attorneys were in a quandary. Two bone specialists had been summoned—the only day they were able to testify.

The lawyers went into a huddle. A short time later William Young, court bailiff, called court to order. The lawyers made stipulations, agreed they would avoid arguments, then began selecting a jury. This done, they called witnesses.

When the testimony was completed, Young warned the jurors not to talk about the case and adjourned court until Wednesday morning. The suit was filed by Mrs. Dorothy P. Frasher who was injured a year ago when a car in which she was riding crashed into a truck owned by the Youngstown Carriage Co. defendant in the action.

Goodyear Develops New Anti-Ice Boot for Planes

AKRON, Feb. 22.—The Goodyear Tire & Rubber Co. today reported development of a new anti-ice "boot" for airplane propeller blades. A company announcement said the boot is composed of synthetic rubber compounded especially to conduct electricity and permits heating of the propeller.

Jane Froman Asks Million

NEW YORK, Feb. 22.—Jane Froman, stage and radio singer, has filed suit in federal court for \$1,000,000 damages against Pan American Airways, Inc. for injuries suffered a year ago today in the crash of the Yankee Clipper in Lisbon.

are definitely stronger in artillery and armor" and air power.
Japan: The air power of Japan also is being overmatched and worn down, and Japan's production is "incomparably small compared with that of the great powers Japan has assailed."

Naval: British action alone has sunk 19 enemy warships and many auxiliaries since Jan. 1, 1943, and half the U-boats known to have been destroyed, and was largely responsible for sinking 315 enemy merchantmen. The royal navy, by disablement and 7,577 officers and men of the royal navy, 4,300 of the merchant marine.

Churchill said it had been asked whether articles in Soviet newspapers implied a cooling-off of Anglo-Russian or American-Russian friendship and a rebirth of suspicion.

The house cheered as he added, "I feel fully entitled to reassure the house on that important point."

Sees Post-War Cooperation
The Allies, he declared, "are equally resolved to pursue the war at whatever cost to a victorious conclusion and they believe that a wide field of friendly cooperation lies before them after the destruction of Hitlerite Germany."

Referring to the Polish problem, Churchill declared: "I have intense sympathy for the Poles but I also have sympathy for the Russian standpoint."

"I cannot feel that Russia's demand for reassurance about her western frontier goes beyond the limits of what is reasonable or just."

Foreign Secretary Anthony Eden is working with the Poles seeking a working agreement pending a post-war boundary settlement and a new statement may be made soon, the prime minister continued. Churchill was in good humor and evoked frequent applause and laughter as he reassured the house of the progress of the war in Italy, at sea, and in the air.
